

## Create The IBM Watson IoT Platform And A Device

Date	11 October 2022
Team ID	PNT2022TMID54368
Project Name	Smart Farmer - IoT Enabled Smart Farming Application
Maximum Marks	2 Marks

The screenshot displays the IBM Watson IoT Platform dashboard. The browser address bar shows the URL: `wg5r5d.internetofthings.ibmcloud.com/dashboard/devices/browse`. The dashboard header includes the IBM Watson IoT Platform logo and a user profile for `manjarm295@gmail.com` with ID `wg5r5d`. The main navigation menu on the left includes icons for Home, Devices, Actions, Device Types, Interfaces, and Settings. The 'Browse Devices' page is active, showing a 'Browse' tab and an 'Add Device' button. Below the header, there are tabs for 'All Devices' and 'Diagnose'. A text block states: 'This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.' Below this is a search bar labeled 'Search by Device ID' and a 'Device Simulator' toggle switch. A table with the following columns is visible: Device ID, Status, Device Type, Class ID, and Date Added. The Windows taskbar at the bottom shows the date as 12/11/2022 and the time as 12:42.
